# Sankalp Mishra

(+91) 88174-53910 | mishrasankalp2005@gmail.com | LinkedIn | GitHub | Leetcode | Portfolio

## EDUCATION

**Vellore Institute of Technology, Bhopal** **Current CGPA: 7.75**

***Bachelor of Technology in Computer Science and Engineering (AI & ML Specialization)*** **2023 – 2027**

## TECHNICAL SKILLS

- **Languages:** C/C++, Python, JavaScript, Java
- **Frameworks & Libraries:** Spring Boot, React.js, Node.js, Express.js, Flask, Pandas, NumPy
- **Database Systems:** Oracle Database, MongoDB, SQL
- **Developer Tools:** Git/GitHub, VS Code, Postman, Jupyter Notebook
- **Platforms & Cloud:** Windows, Linux, Firebase, AWS
- **Core CS Subjects:** Data Structures & Algorithms, Operating Systems, Database Management Systems, Computer Networks, and OOPS

## EXPERIENCE

### Steel Authority of India Limited (SAIL), Bhilai Steel Plant

**Project Trainee Intern** **June 2026 – Present**

- Engineered an enterprise Employee Management System utilizing Spring Boot and Oracle Database, streamlining record-keeping processes.
- Architected RESTful APIs to facilitate seamless employee data management and optimized database transactions.
- Implemented a modular layered architecture with Spring Data JPA integration, ensuring high maintainability and data integrity.
- Executed comprehensive API testing and debugging via Postman, adhering to professional software development life cycle standards.

## PROJECTS

### Virtual Canvas using Computer Vision

**Python, OpenCV, NumPy, MediaPipe**

- Engineered a touchless virtual drawing platform utilizing advanced hand gesture recognition and computer vision.
- Deployed real-time tracking algorithms to enable color selection and canvas interaction without physical peripherals.
- Optimized gesture detection latency by integrating OpenCV and MediaPipe for high-performance frame processing.
- Enhanced interactive capabilities through the implementation of dynamic brush controls and diverse drawing modes.

### SkillConnect – Freelancing & Collaboration Platform

**MongoDB, Express.js, React.js, Node.js (MERN)**

- Architected a full-stack MERN platform for professional profile creation and freelance collaboration.
- Implemented secure authentication protocols using JSON Web Tokens (JWT) for robust user data protection.
- Designed responsive UI components and integrated RESTful APIs to ensure fluid data synchronization and user engagement.
- Managed complex datasets and collaboration requests by leveraging MongoDB for scalable data storage.

## ACHIEVEMENTS

- Recipient of the **PM Merit Award Scholarship** for consistent academic excellence and outstanding scholastic performance.
- **NCC 'A' Certificate Holder** – Completed NCC training, demonstrating leadership, teamwork, and discipline.
